NEW ZIPS LINES SLATED TO OPEN THIS SUMMER Even More Fun in the Forecast—Outfitters Kauai is Adding Three New Zip Lines at Kipu Ranch Facilities

Outfitters Kauai, who has provided so much outdoor enjoyment through the years to so many families, is expanding their fun delivery services. Outfitters, Kauai's leading zip line company, is under construction with three new zip lines that span an entire jungle valley. These new zip lines will tie into the existing Outfitters' zipline course, passing over three separate waterfalls and will measure between 800' and 1,200'. They are designed to highlight spectacular views and even further ramp up the fun in an already thrilling and exciting adventure. Each one will cut through different scenic environments, such as lengthwise down a slot canyon above a jungle stream bed, or rushing toward the massive black cliffs of the Hau'pu Mountains that peak a staggering 2,000' above the surrounding lands.

These new zip lines are being built with the aid of a professional zip line consultant, an island-based architect, a local pole line contractor and a Kauai helicopter company. Invasive vine and tree species such as Cat's Claw and Java Plum are being removed by an arborist to provide for view corridors, safety clearances, and will make for an improved environment for Hawaiian introduced trees like the Ul'u (breadfruit), and Kuku'i (candlenut).

Outfitters Kauai's owner Rick Haviland is ecstatic about how much fun these new zip lines will be. "We really strive to deliver the 'Big fun in beautiful places,' and I can't wait to get these done. It is so spectacular out here, people are going to just LOVE it!"

Adventure seekers will be able to launch across the valleys on the new zip lines starting this summer. For visitors to Kauai, these zip line tours are a fantastic way to experience Kauai's natural beauty and get a little adrenaline going.
